

# VAXIPLACE

**Vaccine and immunisation resources for Australian healthcare professionals.**

## Less time searching, more time treating.

We understand your time is precious, and so are your patients. To ensure time well spent, we've condensed vaccine and immunisation information from trusted resources, into one location.

### What's in it for me?

Vaxiplace has a range of tools and resources that support your vaccine and immunisation related consultations.

#### Free e-learning modules

Access disease and patient-specific online learning modules developed by industry experts.

#### Interactive travel & outbreak map

View real-time vaccine preventable disease outbreaks from around the world, as reported by the World Health Organisation.

#### Videos & podcasts

Explore a growing library of content, from Key Opinion Leader interviews, peer-led discussions and more.

#### Vaccine stock information

Check the status of stock availability for Sanofi Pasteur products in your area.

#### Vaccine dosing and product information

Including indications, dosage and administration, contraindications and product safety information.

#### Tools & resources

Access a range of tools and resources created to help you optimise the time spent with your patients.

## VACCINE HUB

Vaccine Hub is a comprehensive resource available for Australian consumers providing vaccine and disease education. Vaccine Hub also provides a wealth of valuable materials including preventable disease information and travel vaccine recommendations for those travelling overseas. Vaccine Hub has an interactive map to assist traveller in understanding disease risk levels and disease prevalence across different countries they plan on travelling too, as well as allowing consumers to find a General Practitioner near them via Health Engine prior to travelling overseas.
